

OREYNEVENT

Rules of the event

Please help us to make the event a smooth one and even more important to ensure to have a next one, because this is always depending on the peoples' behaviour during the last event. So please be so kind read this and keep it always in mind.

Thx in advance.

- ABSOLUTELY no smoking inside the halls. There is only one place inside the school area where smoking is allowed, so please only do it there.
- No street shoes allowed inside the halls. So if you are going for a smoke you have to change shoes... every time!!!
- WATCH YOUR LUGGAGE!!! This is not because something was stolen so far, BUT bring as few and small luggage into the sparring halls as possible. We need every single square centimetre, so keep your luggage small.
- Be on time in the workshops. Nothing is more annoying than people who are coming late.
- Please don't take open cups inside the sparring halls. If you want to take something to drink with you, use the closable bottle we presented you.
- Be careful while carrying your weapons, especially the pointy ones. Please carry them always point downwards.
- If you make a mess, please clean it up at the very same moment and not 3 days later so we have to take the high pressure cleaner to remove it. We have cleaning material AND of course we will help you! But we can't if we don't know!
- At the toilets... USE THE SPRAY AFTER FINISHING YOUR BUSINESS! Yes it is childish to say that, but obviously some people are not doing it. Keep in mind that there are over 200 people in the halls for three days, so it will be smelly on the toilets, no doubt about it. So use the brush and use the spray even if you are thinking it does not smell, because believe me, it does. :D

- And the last and most important rule... **HAVE FUN!**
